# ORAL ENGLISH

A satisfactory correlation of Oral English with certain of the regular composition and literature courses of the secondary schools has been effected by some of the leading high schools of the United States through the use of the inexpensive and compact little text, **Elements of Debating**, by LEVERETT S. LYON of the Joliet Township High School.

*The virtues claimed for this little book by those who have put it into the hands of their pupils are these—*

- ¶ It offers an effective way of producing Oral English.
- ¶ Instead of interfering with the regular composition and literature work, it correlates as a stimulating supplement.
- ¶ The book teaches the subject, thus establishing the confidence of the teacher untrained in public speaking and enabling such a teacher to do highly effective work.
- ¶ The book is written by a high-school man familiar with the high-school problem and is soundly within the vocabulary and experience of high-school pupils.
- ¶ A pamphlet, "Aid in Oral English," will be sent for the asking.

## **The Elementary Course in English**

By JAMES FLEMING HOSIC  
*Head of the Department of English  
Chicago Teachers College*

"The Elementary Course in English" is a practical guide for teachers, supervisors, and parents. It presents in outline a working theory of elementary English, with selected references to the recent literature of the subject. In this way the book is well fitted for individual study and for group discussions in normal schools, teachers' reading circles, teachers' institutes, and parents' associations. The book contains also a suggestive course of study in composition, grammar, word study, reading, and literature. Definite standards of attainment in these subjects are indicated for each year in terms of efficient activity. Graded lists of material are provided. These include stories for reading and for telling, poems for study and memorizing, supplementary reading books classified by subjects, and selected literary studies for higher grades. There is an appendix, which contains a list of books to be read to the children, a list of verse collections, and a list of prose collections. All the pieces mentioned in the body of the work may be readily found in these collections by means of an ingenious system of indexing.

## Lewis and Hosic's Practical English for High Schools

By WILLIAM D. LEWIS, Principal William Penn High School for Girls, Philadelphia, and  
JAMES FLEMING HOSIC, Managing Editor, *The English Journal*, Secretary of  
National Council of Teachers of English, Head of Department of English, Chicago  
Normal College, Chicago. Cloth, 12mo, 350 pp. approximately. Price \$1.00.

**T**HIS book attempts to teach the old subject of English composition in a way that is more informal and interesting than is customary. There is a liveliness of tone to the presentation which is well calculated to appeal to the pupil and spur him on to do the work presented. Each topic begins with illustrative selections, many of them from student themes, and from these suggestive questions bring out the most important principles, which in their turn are made the basis of exercises to be performed by the pupil. There is an absence of formal and formidable rules.

Throughout the work it is the practical side that receives the chief emphasis. The pupil is given a working knowledge of modern business methods. Besides being drilled thoroughly in those fundamental principles that are common to all kinds of good English, his attention is devoted to the use of cards for filing and outlining, the study of business reports, business letters, proofreading, and newspaper writing. An attempt is also made to teach the pupil how to criticize and correct his own work, and how to make correct recitations. A brief review of the essentials of grammar is included.
